Subject: Re: VB/I-70 Superfund Site Quarterly Public Meeting!

Dear Jennifer,
Thank you.

We want to have the joint status of the meeting posted on the actual Agenda, for the record.

The CAG will make its presentation at the beginning of the meeting to make sure that there is time for its important business. It is , after all, just 10 minutes out of a 120 minute joint meeting.

Aside from the fact that the CAG should not be relegated to just another community group or public commentator and stuck on the end of the meeting, a new member of the CAG Advisory Board who will be introduced may not be able to stay for the entire meeting.

LaMone Noles is the regular facilitator for the CAG and will facilitate that portion of the meeting.
The EPA is free to have its own facilitator for its portion of the meeting.

Thanks again for all of your help.

Bridget, I already agreed that we would add time for the CAG and note specifically that this is a joint meeting in the agenda. I have done that and am bringing copies. We have a facilitator in place for the quarterly meetings, and he will be facilitating the meeting tonight. But we welcome Lamone as a general participant in the meeting, of course.

Dear Jennifer,

Since this is a joint meeting of the EPA and the CAG, and that was not mentioned in your proposed agenda, I took the liberty of reflecting that status in the Agenda for tonight's meeting.

Also, the CAG has a congressional mandate to advise the EPA.

We will offer the EPA an important CAG Recommendation tonight.

We also have an announcement about new members and new additions to our Advisory Board.

We believe that this CAG business can be taken care of at the beginning of the meeting in 10 minutes .

Also, the CAG's facilitator, LaMone Noles, will attend the meeting.

Thanks for your help. I will bring copies of the new agenda.
